Notes:

1 All courses required for the minor must be listed. For example, the Chemistry minor requires 20 units of Chemistry courses, but several of the courses have the requirement of two semesters of Calculus (Calculus I and II). The lower-division requirements for the Chemistry minor must include these additional math courses.

2 The Academic Senate at CSUCI has approved that all minors must have a minimum of 15 units, 9 of which must be upper-division.
